SUMMER INTERNSHIP / WORK EXPERIENCE

Intern, Technotran   **May 2024 - Jul 2024**

Focusing on Artificial Intelligence and Machine Learning using Python. Looking forward to developing innovative solutions and expanding my skills in AI and ML. Thrilled to be part of a dynamic team and contribute to cutting-edge projects. Excited to join Technotran as an intern, focusing on Artificial Intelligence and Machine Learning using Python. Looking forward to developing innovative solutions and expanding my skills in AI and ML.

PROJECTS

Airline Reservation System-SDP2 - Java fullstack Application   **Dec 2023 - May 2024**

Developed a scalable airline reservation system with seamless booking, real-time tracking, and secure payment integration.

Tourism and Hospitality Management system-SDP1 - Python Django   **Jul 2023 - Dec 2023**

Developed a user-centric travel app with seamless booking, real-time recommendations, and interactive maps to enhance the travel experience.

POSITION OF RESPONSIBILITY

Student Representative - Arise - AI & DS department Student body   **Nov 2024 - Present**

As the Student Representative for the AI & DS department, I act as a liaison between students and faculty, addressing concerns related to academics, transport, hostel facilities, canteens, and the library. My role involves gathering student feedback, advocating for improvements, and working closely with relevant departments to enhance the overall student experience. Through this position, I am developing leadership, communication, and problem-solving skills while striving to improve the campus environment for all students.
